

METROWEST MEDICAL CENTER

Framingham Union Hospital • Leonard Morse Hospital

Application/Recruitment Process

This is how our recruitment process works:

- Apply online at www.mwmc.com
- Receive an auto-reply to your email confirming the application has been received. Please be sure email addresses are listed accurately.
- A Recruiter will review your application for the skills, experience & knowledge required for the position.
- You may receive an email to complete an online Gallup assessment, depending upon your qualifications.
- Not all applicants are contacted by a Recruiter for several reasons, including some of the following: there are already enough candidates for the position, the position is in the process of being filled, the applicant does not meet all of the requirements for the position, etc.
- If you match the needs of the position you may be contacted by a Recruiter via email or phone to further discuss the position and/or schedule an interview.

We receive lots of phone calls inquiring on the status of applications. Recruiters are not able to return all calls due to the large volume of applicants. If we wish to continue the employment process, a Recruiter will contact you.

If you are interested in another position at a later date, please login to www.mwmc.com and reapply to the current position of interest.

Thank you for interest in a career at MetroWest Medical Center!
